

## **Kimberley Friesen**

"I have lived in NOTL for over 40 years. My husband and 2 children were born and raised here. I have a business diploma and a degree in Health Administration. I recently retired from Niagara Region Public Health where I worked for the previous 20 years with the last several years as a program manger. Prior to working with Public Health, I worked in the Region's Community Services dept and prior to that with the Town of Niagara-on-the-Lake. I have strong technical skills in computer software, and I am highly organized. I value collaboration, teamwork and diversity.
